

Argonne's 2010 R&D 100 Winners

The Argonne delegation, Nestor Zaluzec, MSD; Mark Peters, OTD;
Cynthia Wlodarski, TDC; Robert R. Fischetti, Shenglan XU,
and Nagarajan Venugopalan, BIO.

Argonne's 2010 R&D 100 Winner

The Hard X-ray Uni-body Quad Collimator for Structural Biology

Accepting the award are inventors Nagarajan Venugopalan, Shenglan Xu, and Robert R. Fischetti, all of Argonne's Biology Division.

Inventors not pictured include:

Derek W. Yoder, Ruslan Sanishvili, Michael Becker, Craig Ogata, Sergey Stepanov, Oleg Makarov, Mark Hilgart, Sudhir Pothineni, and Steve Corcoran, of Argonne;
and Janet L. Smith, of University of Michigan.

Argonne's 2010 R&D 100 Winner

The Pi Steradian Transmission X-ray Detection System for Nanoscale Analysis in Electron Microscopes and Electron Optical Beam Lines

Inventor, Nestor Zaluzec of Argonne's
Material Science Division,
on stage accepting the award.
